IS IT WORTH YOUR TIME?

The question behind everything we do.

Who we are

NewGame+ is an independent Portuguese gaming media and creator platform focused on helping players make better decisions about the games they play.

We don't simply ask whether a game is good. We ask a more useful question: **does it deserve the player's money and time — and when is the right moment to buy it?**

Hands-on experience is the foundation of our content. We turn that experience into reviews, first impressions, guides and Platinum-focused coverage in Portuguese, for Portugal and Brazil.

OUR QUESTION

Is it worth your time?

The principle connecting every NewGame+ format.

Worth your time, not just a score.

We combine traditional game criticism with a strong focus on completion, trophies and the overall time investment required from players. NewGame+ looks at a game from the perspective of someone who wants to know what the experience really demands before committing to it.

01	Independent reviews & critique
02	First impressions coverage
03	Platinum difficulty & completion experience
04	Indie & discovery coverage
05	Editorial features on the website
06	Long-form video on YouTube
07	Short-form content on TikTok

4 formats / 4 ways to help players decide

01 Before the Platinum

Difficulty, length, missables, grind, RNG and whether the Platinum is worth the effort.

02 One Hour With

One hour of hands-on play to decide whether to buy now, wait for a sale or skip.

03 Retro+

A look at what still holds up, what has aged poorly and whether a retro game deserves your time today.

04 Discoveries+

A dedicated space for small studios, indie games and projects that can be overlooked.

Portuguese-language content • Portugal + Brazil

Independent coverage	Player-focused perspective
Our editorial opinions are never influenced by access, review copies or publisher relationships.	We focus on whether a game deserves the player's time and money — not simply on a review score.
Completion-focused expertise	Multi-platform coverage
Trophies, achievements and the effort required to complete a game are a core part of our coverage.	A single game can become editorial coverage, long-form video and short-form social content.

ONE GAME • MULTIPLE TOUCHPOINTS

This is where NewGame+ can be useful to smaller publishers and studios: one hands-on experience can be adapted into several pieces of Portuguese-language editorial coverage.

Review copies & coverage

We welcome review copies, preview access and early access opportunities for games that fit our editorial coverage.

WHAT A GAME CAN BECOME

One game • multiple touchpoints

Depending on the project, coverage can include a website feature or review, One Hour With, Before the Platinum, Discoveries+ and short-form social content.

EDITORIAL INDEPENDENCE

Providing access does not guarantee coverage, a positive opinion or a specific score. Every game is evaluated independently after hands-on experience.

BEST FIT

We are especially interested in indie games, smaller studios, completion-focused experiences and projects that can benefit from Portuguese-language discovery.

Put your game in front of Portuguese-speaking players.

If you represent a studio, publisher or project you'd like to see covered by NewGame+ PT, we'd love to hear from you.
